

LINEAR

Swing Gate Operator

The Linear operator is an electro-mechanical operator enclosed within an aluminium housing.

It has a 24 vdc motor which is rated for intensive use and is suitable for gate leaves up to 4 metres and weighing 300kg.

No electric lock is required on leaves up to 2.5 metres

It has a manual release mechanism that enables the gate to be moved by hand or an optional battery backup is available to ensure operation during power failures.
