

EL Series Centre Drive Operators

EL 145 and EL 200 centre drive door operators

The EL Series of centre drive operators are designed for use on shopfront doors and domestic garages.

They can be fitted with a logic panel for garage applications, were you require PE beams, radio transmitters and auto close.

They are quick and easy to install with high quality components. The automatic setting of the open limit reduces installation time.

Optional accessories include, key switches, radio control , G switch GSM mobile phone operation, safety beams.

EL Series Centre Drive Operator features include:

- Electromagnetic Brake
- Easily adjusted limit switches
- Quick installation
- Secure external brake release
- 9 RPM motor - most suitable for shop fronts
- Epicyclical gearbox roller cage with precision steel rollers
