

# SafePass PE Safety Beams

VP920 and VP911 Vandal Proof PE safety beams

Sentinel VP920 PE safety beam

## VP920 PE safety beam

The VP920 safety PE beams are manufactured from a high quality aluminium alloy (Zama) which provides an extremely strong casing that will withstand extreme abuse.

This makes it suitable for installation in vandal prone areas, close to night clubs, unsupervised car parks and industrial complexes with heavy machinery moving around the doors or gates.

The lens can be moved through 180 degrees to accommodate misalignment and the casing is waterproof to IP66.

LED indicators aid with the alignment and an outdoor range of 15 metres means that it is suitable for most large gates and doors.

Sentinel VP911 PE safety beam

## VP911 PE safety beam

The VP911 has the same vandal proof features as the VP920 but it is smaller in size.

It is designed for applications where space is a problem and can easily fit onto narrow gate posts or door frames.

The lens can be moved through 90 degrees to accommodate misalignment and the casing is waterproof to IP55. The operating range outdoors is 8 metres.

## Technical Specifications

Sentinel PE Safety Beams	VP920	VP911
Current	110mA at 24vac	110mA at 24vac
Relay rated	1 A 24v ac	1 A 24v ac
Dimensions	130 x 60 x 52	25 x 22 x 130
IP Rating	IP 66	IP 55
Contacts	1 x N/O 1 x N/C	1 x N/O 1 x N/C
Power	12-24v ac/dc (set jumper for each voltage)	12-24v ac/dc (set jumper for each voltage)
Range	15 metres	8 metres

## Construction

Rotech supply all forms of door and gate automation

### Vehicle Access Control

- Booms Gates
- Sliding Gates
- Swing Gates
- Industrial Door Openers
- Solar Powered Gate Openers

### Pedestrian Access Control

- Full Height Turnstiles
- Waist Height Turnstiles
- Supermarket Gates/Turnstiles
- Wheelchair Access Gates
- Rapid Access Gates

**Fast | Safe | Secure**
