i-Gate 1200 Gate Opener
Advanced 4g GSM opener with phone app

The i-Gate 1200 is ideal for domestic or commercial use. Suitable for small to medium size buildings, the i-Gate can be used for controlling gates, doors or boom gates.

This simple GSM gate opener allows you to control your automated gate function via SMS giving you complete control of your gates at your fingertips from anywhere.

The i-Gate can store up to 1200 numbers, and any of these numbers can call the i-Gate, which then activates an output relay to open a gate or a boom gate. *(There is no charge for calls made between your mobile phone and the i-Gate).*

Programming the unit is done by SMS text message; with options to check the SMS signal, add numbers for access and add a service number.

This device comes with an App which is compatible with both Apple and Android devices and can be downloaded from your App store by searching for "*AES Lite App*" or using the QR code.
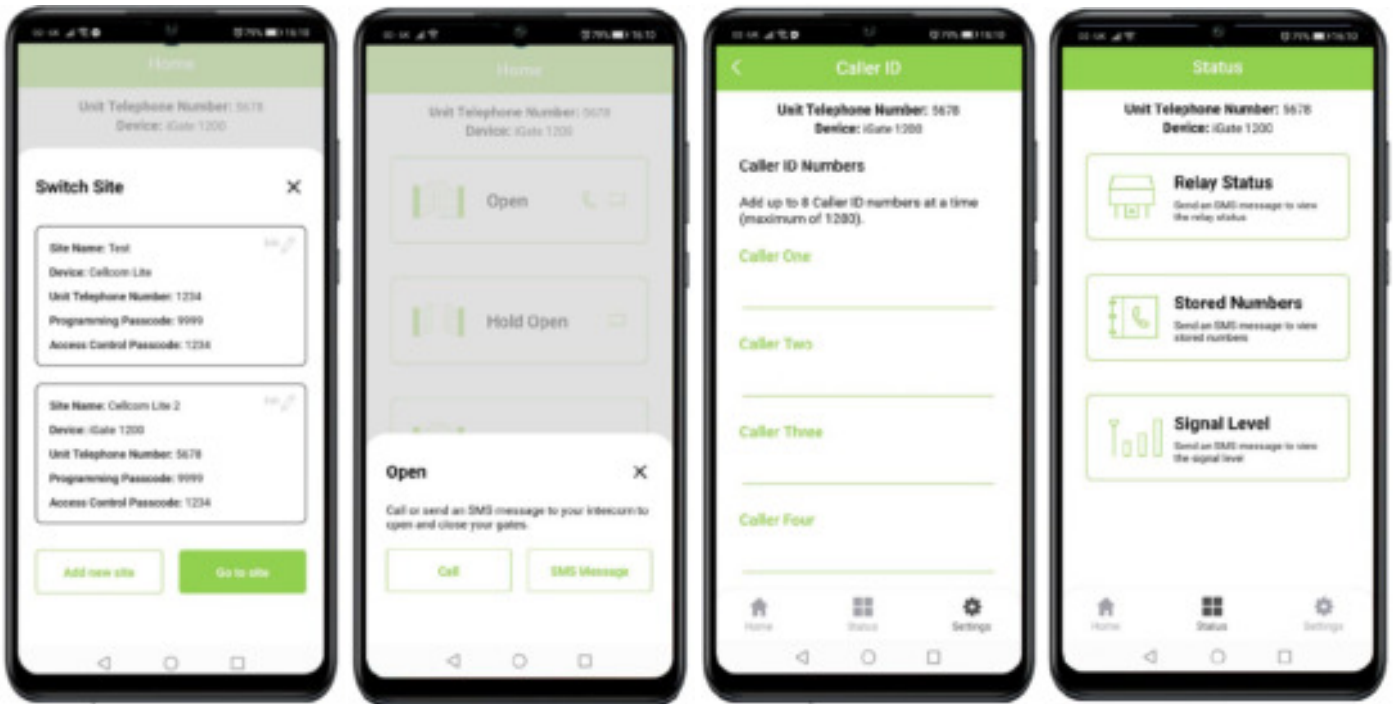

i-Gate features include:

- Large memory which can store up to 1200 numbers for caller ID access.

- GSM gate opener with IOS & Android apps

- App available with hold open buttons *(for gate systems supporting this feature)*

- Check stored numbers by SMS

- SMS passcode access for non-stored numbers

- Simple programming by SMS text or app

- Trigger, latch and unlatch gates by SMS text or with app

- Program dial out numbers and other related features.

- **Note:** the i-Gate requires a 4G SIM card to operate *(not supplied).*
